Annexure-II

Actions to be taken by the State Governments/ UT Administration related to the implementation of the 3 Scholarship Schemes:

- i. All Universities/ Institutions / Colleges/ Schools, having valid AISHE/U-DISE/NCVT/SCVT codes, located in the State/ UT should be advised to register themselves and get their KYC and Aadhaar-Demo-Authentication done at the earliest. They should also be advised to get their courses' details updated on the NSP at the earliest so that their students can apply and they can verify such applications on the Portal within the timelines.
- ii. The timelines need to be adhered to strictly. Technical issue, if any arising during the process of online submissions, verification, generation of merit lists and payment lots may be resolved immediately in consultation with the NIC HQ or State NICs at the earliest.
- iii. It has been observed that after the last date (s) of verification, a large number of Fresh as well as Renewal applications are left pending for verification at L1 level by Institute Nodal Officers and L2 level by State/ District Nodal Officers (SNOs/DNOs). All States / UTs are advised to look into this issue and ensure that no application remains unverified after the stipulated last date (s) of verification during 2022-23.
- iv. All Verification Authorities (INO/ DNO/SNO) are advised to mark an application fake only if he/ she is satisfied that the applicant is not a bonafide student. In other circumstances, in case of non-fulfilment of eligibility criteria or inconsistency of records, the verifying authority may either reject the application or mark it defective and give the applicant another opportunity to correct their records.
- v. It needs to be noted by all the INOs, DNOs and SNOs that in case if any application is marked fake at L2 Level by the DNO or the SNO then the entire bunch of applications from that School/ Institute will go back to the respective INO login of that School/ Institute for re-verification. Hence the DNOs/SNOs are advised to exercise caution while using the option of marking an application fake.
